NEF DEIS re: waste disposal

Nuclear Regulatory Commission Chief, Rules and Directives Branch Division of Administrative Services US Nuclear Regulatory Commission Washington, DC 20555-0001

NUREG-1790/Docket #70-3103

Public Comment: Draft Environmental Impact Statement for the Uranium Enrichment Facility Proposed by Louisiana Energy Services for Lea County, NM

To Whom It May Concern:

I am writing to submit my public comments for consideration regarding NUREG-1790. I am particularly concerned with the fact that the draft EIS statement mentions the possibility of locating a depleted uranium hexafluoride conversion facility near the NEF. The option is unfeasible. The State of New Mexico requires that the waste be moved out of the state and not just off-site. This is not a feasible conversion option and should not be considered. I request that the EIS cease to mention moving the waste off-site as a viable possibility.

Thank you.
